Our Mission

Our school is an aided secondary school set up by The Education Foundation of the Federation of the Alumni Associations of The Chinese University of Hong Kong in September 1991. ‘博文約禮’ (bo wen yue li) is our school motto, which means to broaden one's intellectual horizon and to keep within the bounds of propriety. We promote a positive attitude to life, a sense of social and national responsibility, and independent thinking.

We are professional
Teachers with vision.

We believe every student is
Creative and intelligent.

We provide
Students with multi-disciplinary learning experience.

Together we build a
School with love and care.
Collaborating with University Scholars

Our school has adopted School Based Management since 1996 and we are among one of the first schools to have established the Incorporated Management Committee and Performance Pledges. We have invited experienced educationists and professors from The Chinese University of Hong Kong to be our teaching advisers.
Implementing New Curriculum

- We teach Liberal Studies in all forms to prepare for the New Senior Secondary Curriculum.
- Through project learning, external visits, field trips, presentations and competitions, we provide life-wide learning experiences to students.
- Funded by the EDB, we provide English drama courses, tutorial classes and multi-intelligence training courses free of charge for junior form students.
- There are after-school and weekend English enhancement programmes, and special Chinese and Mathematics courses for the academically gifted or under-privileged students.
